

INSTRUCTIONS

Step 1. Remove previous versions of MySQL

```
del c:\windows\my.ini  
sc delete mysql
```

Step 2. Install MySQL

Unzip mysql-5.0.zip in the directory C:

```
cd C:\mysql-5.0\mysql-5.0.24a-win32\bin
```

Start the server: `mysqld`

Stop the server: `mysqladmin -u root shutdown`

Start a client:

Open a dos windows

```
cd C:\mysql-5.0\mysql-5.0.24a-win32\bin
```

```
mysql -u root
```

Note:

-move start.bat/stop.bat to C:\mysql-5.0\mysql-5.0.24a-win32\bin

-use these files to start and stop the server
